## About Me

My name is Thet Maung, a recent IT graduate from Metro IT and Japanese Language Center. In addition to my formal education, I'm a self-taught developer with skills in popular frameworks like React, React Native, Flutter (including Dart), Angular, and Golang.

## Experience

### QHRM 2023 July - 2024 March

React Native Developer

- Built user-friendly mobile applications (including a Human Resources Management app)
- Ensured seamless functionality and resolved technical issues
- Honed problem-solving skills by tackling complex challenges
- Learned to approach problems creatively, seek help, and persevere
- Strengthened technical skills in React Native
- Gained experience in the full software development lifecycle
- Fostered effective collaboration skills through teamwork
